Portfolio: https://jkim011.github.io/jared-portfolio/

Full Stack Web Developer hungry to apply creativity and problem solving skills to develop applications that solve real world problems. Certified by UT Austin Full Stack Bootcamp. Maintains a growth mindset to stay on top of this constantly changing industry. Strong communication, teamwork, and attention to detail due to background as a martial arts instructor.

Technical Skills

JavaScript | React | HTML | CSS | MongoDB | MySQL | NoSQL | GraphQL | Express | Node | jQuery | Bootstrap

Projects

GitFund | https://github.com/RyStreet/git-fund | https://git-fund.herokuapp.com/
- Summary: MERN Stack app. Crowdfunding and collaboration platform where developers can support developers. Users can post projects to receive donations and let others collaborate on it, and do the same for other posted projects.
- Role: Full stack. Worked both in front and back end connecting them.
- Tools: MongoDB, Express.js, React, Node.js, Semantic-UI, CSS, GraphQL, Apollo

Text Editor | https://github.com/jkim011/jareds-text-editor |
https://jareds-text-editor.herokuapp.com/
- Summary: PWA. Text editing application that can be installed and used offline. Behaves like a mobile app and can be used on any platform with a browser.
- Role: Worked on backend. Implemented IndexedDB to store data for offline capabilities, configured service workers and webpacks for installation
- Tools: JavaScript, HTML, CSS, idb, webpack

Social Network API | https://github.com/jkim011/jareds-social-network-api
- Summary: API for social network application where users can share thoughts, add friends, and add reactions to friends' thoughts. No frontend.
- Role: Built the entire backend.
- Tools: MongoDB, JavaScript, Express.js, Mongoose, Node.js, Moment.js

Experience

Service Associate   **2022-Present**
Target   **Cedar Park, TX**
- Work with a team to efficiently gather, organize, and deliver several hundreds of guest orders per day via curbside pickup in a fast paced environment
- Assist guests with purchase questions, finding specific products, and returns
- Quickly and accurately perform transactions at the cash register and service desk for an average of a hundred guests a day

Key Accomplishments:
- Acknowledged for being able to stay organized while working with multiple orders at once
- Consistently deliver orders on time within the given time windows

Martial Arts Instructor   **2016-2020**
World Martial Arts Center   **Yorba Linda, CA**
- Worked with a team of instructors to teach martial arts to students from all walks of life and a diverse range of age groups.
- Organized and led daily classes of an average 80 students a day, and assisted in running quarterly belt graduations/fundraising events which contained several hundred attendees
- Ran front desk to provide customer service which included selling equipment/merchandise, providing information on lesson plans and schedules, and answering the phone

Key Accomplishments:
- Received significant recognition award for showing outstanding leadership amongst team
- Consistently praised for having sharp attention to detail when teaching and performing techniques
- Was able to build trust and good connection with many students

Education

Certification in Full-Stack Coding Bootcamp – University of Texas   Austin, TX
Graduated March 2023
